

What is Medicare?

Medicare is a federally-funded health insurance program available to adults who are 65 and older, as well as certain disabled individuals.

How can you get Medicare?

You'll be automatically enrolled in Part A, but you must call Social Security to get Part B. Then, you can explore additional coverage options with our licensed sales agents.

How can you get help with additional Medicare coverage?

Once you have Parts A & B, our licensed sales agents can explain your Medicare coverage options and guide you through the enrollment process. You'll find the coverage that's right for you.

Our agents can help you find the right plan for you:

Will you need help understanding how Medicare works?

Have you researched what type of Medicare you need?

Do you currently have health insurance coverage?

Do you have a primary care physician?

How many times a year, on average, do you see a doctor?

Do you see a specialist for any current health conditions?

Will you need Medicare prescription drug coverage?

Do you have a preference for what type of Medicare coverage you get?

Do you need a plan just for yourself or for others, too?

When would you like your Medicare coverage to begin?

Happy 65th Birthday!

For your 65th birthday, you will be automatically enrolled in Part A of Original Medicare. Part A covers:

- Hospital care
- Skilled nursing facility care
- Nursing home care
- Hospice
- Home health services

You must call your local Social Security office to enroll in the second part of Original Medicare, Part B. Part B covers:

- Ambulance services
- Inpatient and outpatient mental health
- Clinical research
- Getting a second opinion before surgery
- Durable medical equipment, like crutches

Original Medicare – both Parts A & B – before you can move forward with additional Medicare coverage.

Medicare has neither reviewed nor endorsed this information.

Medicare Advantage

Designed as a private health insurance option, Medicare Advantage plans offer all the same benefits as Parts A & B, plus some prescription drug coverage.

Prescription Drug Plans

These private insurance plans – also called Part D – help cover the cost of prescription medication. Each plan covers different drugs, so it's important to review your medication before enrolling.

Medicare Supplement

Facing high out-of-pocket costs? Medicare Supplement plans – also known as Medigap – help fill gaps in coverage, like coinsurance and copayments.

Shopping for your spouse, too? Medigap policies only cover one person, so each member of your household must buy their own policy.

Have Original Medicare and ready for more options?

Open Enrollment is from October 15th to December 7th, 2019.

You're not required to re-enroll in Medicare each year, but you can review and change plans if needed.

Want More Medicare?

Our licensed sales agents can help you discover additional Medicare coverage options.
